

AUTHOR BLOG MARKETING SERVICE

The Author Blog Marketing service is another way we help you be successful with your book. We want to see you get your book out there and shared with the world.

Not sure where to start?

We will interview you for a blog that will be posted on our website. You can also use the blog on your own site, and as the basis of a social marketing campaign.

Why are we doing this?

Because we believe our relationship with our authors is a partnership. You trusted us with your manuscript - now your book - and we want to put you in the best position to market and promote it!

We empower authors - often first-timers by taking their content and turning it into a gorgeous book. A book that is even better than most authors ever imagined for themselves.

We help authors clarify why they wrote the book, who their target audience is, and then design a book to address both. Our collaborative approach is very hands-on, allowing you to maintain control with our expert guidance.
